

Patompong Savaengsuk

Full Stack Web Developer

I'm a passionate and self-learning Full Stack Web Developer with seven years of experience, four of which working remotely. My preferred tech stack is Laravel, React, and TailwindCSS. I highly value clean code and the future maintainability of any web applications that I make.

PROFESSIONAL EXPERIENCE

Full Stack Web Developer (Remote)

Integrated Data Communications (BVI) Limited.c.

08/2017 - Present Chiangmai, Thailand

We provide hosting solutions for our customers. The company is based in London, UK.

Achievements/Tasks

- I plan, design, and implement an e-commerce website suite with more than five subsystems and thousands of customers.
- I improve the legacy code by using design patterns and refactoring techniques.
- I improve the system performance by applying the correct database indexes techniques.
- I implement the code to connect to PayPal, Klarna, and WorldPay API for payment processing.

Freelance Contractor for Toyota

Toyota

06/2018 - Present

I built IoT monitoring web applications for Toyota.

Achievements/Tasks

- I plan, design, implement and maintain three high-performance IoT devices monitoring web applications.
- I design the data structure that we use to collect hundreds of data points minutely.

Freelance Contractor on Upwork

Upwork

01/2021 - Present

Achievements/Tasks

- I plan, design, and implement the Google App Script plugin (Google Sheet). The application allows its user to file UK VAT to the HMRC department.
- I implement the code to connect to Stripe for payment processing and subscription management.

Director
